EDUCATION

B.Tech in CSIT, AITR, Indore

7.59 CGPA

2020 - 2024

SKILLS

- JavaScript
- React
- Node
- Express
- Mongo DB
- TailwindCSS
- HTML 5
- CSS 3
- Bootstrap
- MUI

LANGUAGE

Hindi

English

PROJECTS

milletaahaar.com

milletaahaar.com is a platform which provides information regarding millets. Millets are one of the most important organic product in today's world. The government of India has declared the year 2023 as the "International Year of Millets". milletaahaar.com also provides information regarding the recipes of millet and the purchase of millets. If a user wants to purchase millets he/she can buy it from the same platform. [Live Demo](#)

Char Dham Yatra informer WebApp

A ReactJS, NodeJS, MongoDB, ExpressJS-based website facilitates Char Dham yatra guidance, featuring Hotels, Weather updates, Travel Agents, Temple Timing, Hospitals, Dharamshalas, Home Stay, About CharDham, and the Best Time for Journey for an enhanced user experience. [Live Demo](#) | [GitHub Code](#)

Easy File Sharing WebApp

This is an Easy File Sharing Application using the MERN stack. Developed a user-friendly interface for seamless file uploads and integrated features to generate live download links. Allowing users to share files through unique links. This project highlighted creating practical solutions that prioritize user experience and data privacy. [Live Demo](#)

Professional Portfolio

This portfolio is designed for a specific faculty who is working in the Department of Computer Science & Information Technology. This basic portfolio showcases all the features and basic profile of the faculty. I have used React and TailwindCSS technology in this portfolio design project. [Live Demo](#) | [GitHub Code](#)

TOOLS

- Git & GitHub
- Visual Studio Code
- Thunderclient & Postman
- Figma

TRAINING

Universal Informatics:

- MERN Stack Web development

Sep 2022 - Nov 2022
